PROFESSIONAL SUMMARY

Operations and admin professional who has both run a business of his own and built the operating systems for a new one. Turns manual, paper-based work into spreadsheets, scripts and documents that staff use every day: order management, double-entry accounting, HR and payroll records, and a WooCommerce online store. Hands-on with Excel, Google Sheets, Apps Script, WordPress/WooCommerce and basic Python.

PROFESSIONAL EXPERIENCE

Admin & Website / Online Operations | AB Agro Mart

2026 – Present

- Built 9 linked spreadsheet systems, from task tracking to double-entry accounting; 11,000+ formulas checked against hand calculations with zero errors.
- Run order management through monthly workbooks (a tab per day, self-calculating totals), plus supplier records, HR records, attendance and payroll.
- Designed, developed and configured abagromart.com (WordPress/WooCommerce): 146+ products with structured profiles, checkout, delivery workflow, and policy pages (About, Privacy, Terms, Shipping, Return & Refund, Cancellation, FAQs).
- Automated new-order entry from WooCommerce into Google Sheets (webhook + Apps Script), and built a Python/Node.js pipeline that generates product profile documents from one spreadsheet.
- Built the AB Traderz wholesale landing page (React) with a Google Sheets-connected registration form.
- Designed staff-facing documents: bilingual (English/Bangla) appointment letters, printable order slips, rider fuel logs, employee database, ID cards and a fixed-asset register with automatic depreciation.
